

MINNESOTA NORTH STAR ACADEMY

Preparing students who communicate in ASL and English to become successful and valued world citizens

February 22, 2008

To: Members of Minnesota North Star Academy Community

RE: Rochester Institute of Technology
National Science Fair for
Deaf and Hard-of-Hearing Students

Six students from Minnesota North Star Academy could not have made the North Star community prouder. Last week, Rochester Institute of Technology (RIT) informed Kristin Cuta, MNSA's science teacher, that six students have been invited to compete in the National Science Fair based on their science fair proposals that were submitted to RIT last month. These six students will travel to Rochester, New York to compete during the weekend of March 14th along with Kristin Cuta and Susan Outlaw. I am proud to announce our fine young students; Sveta Anderson, Brienna Herold, Jessica Oldfather, Allison Porter, Jared Treichel, and Scott Symes are the ones who will represent Minnesota North Star Academy when they participate in the National Science Fair. We extend our congratulations to these six students. This is an exciting time for MNSA! MNSA students, staff, and parents are thrilled that North Star will be well-represented when our students travel to Rochester, New York, next month for the National Science Fair.

For further information on Rochester Institute of Technology's National Science Fair for Deaf and Hard-of-Hearing students, please visit <http://www.ntid.rit.edu/prospective/science/enter.htm>

Thank you,

Kimberly Kause
